

2008 Bank Technology Best Practices (Parts I and II)

 <p>WEBINAR SEMINAR</p>	Date:	July 1, 2008 (Part I), and July 8, 2008 (Part II)
	Time:	1:30 – 3:30 p.m. Central Time
	CPE Available:	2.5 hours CRCM/CFSSP per session
	Seminar Code:	SW-1090 Network & Internet Security SW2-1181 Preparing for Your Next IT Exam
	Seminar Description:	<p>Part 1 <u>Network & Internet Security</u> Along with protecting your customers from unauthorized access to their information and identity theft, you must also protect the institution's intellectual and proprietary information and ensure your reputation stays above reproach. This webinar covers some of the threats facing institutions today and explores methods for securing your network and protecting your valuable information assets. We will provide information on the current threat landscape, regulatory hot spots, and take a look at some of the challenges and solutions available. Highlights include:</p> <ul style="list-style-type: none"> • Threat and vulnerability trends: current issues, regulatory hot buttons • Managing and mitigating the risks: components of an information security program; people, processes, product (security controls); vendor management • Overview of available solutions - what's available <p>Part 2 <u>Preparing for Your Next IT Exam</u> It is critical that banks have effective information security control systems with detailed policies and procedures for monitoring and oversight, especially at a time when technology is changing rapidly, and regulations and legal requirements are increasing. Regulatory examinations are now risk focused and generally concentrated on information management and security. This webinar covers at a high level areas typically addressed in an IT exam, focusing on "examination hot spots" and regulatory requirements. You will learn practical information for preparing for your next IT exam regardless of whether you are examined by the FDIC, FRB, OCC, OTS, or NCUA. Highlights include:</p> <ul style="list-style-type: none"> • Traditional IT examination components: management, audit, operations, development and acquisition, Internet banking and EFT • Regulatory requirements: Information Security Program, risk assessment, business continuity plan, incident response plan, vendor management program • Controls and security management: operations/core processing/network, electronic banking and wire transfers • 2008 Examination "hot spots"
Who Should Attend:	Senior management, IT and operations personnel, information security officers, auditors, compliance officers and network administrators	
Seminar Speakers:	Susan Orr , CISA, CISM, CRP, is an industry expert with vast regulatory, risk management, and security knowledge. She currently consults for security providers and performs IT security/regulatory reviews for financial institutions.	
What is a Webinar Seminar?	Each program includes 90 minutes of instruction and 30 minutes live Q&A. Each registrant provides one connection to the live webinar and 30 days access to the online seminar. You may have unlimited participants on your connection by speaker phone.	
What are the costs?	Tuition is \$250 per 'site license,' and listeners on your connection are unlimited.
